

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

November 12, 2003

ISAAC L.

On October 31, 2003, the Children's Services Inspector General completed its investigation into the death of Isaac L., a child under the supervision of the Department of Children and Family Services (DCFS). Isaac's death was ruled a homicide. The Inspector General found several factors related to the quality of supervision by DCFS, which may have contributed to Isaac's death. The Inspector General recommends several areas where DCFS can improve its operations to help prevent similar situations in the future.

I, THEREFORE MOVE THAT the Board instruct the Director of Children and Family Services to report back in 14 days with a corrective action plan and submit quarterly reports on the implementation of the Children's Services Inspector General recommendations.
